WATFORD BOROUGH COUNCIL

Planning and Compulsory Purchase Act 2004 The Town and Country Planning (Local Planning) (England) Regulations 2012

Cycle Parking, Supplementary Planning Document (SPD) –Consultation Statement

- 1.1 The Town and Country (Local Planning)(England) Regulations 2012 under Regulation 12(a) requires local planning authorities to prepare a statement, setting out:
 - i the persons the local planning authority consulted when preparing the supplementary planning document;
 - ii a summary of the main issues raised by those persons;
 - iii how those issues have been addressed in the supplementary planning document;
- 1.2 In accordance with this part, and Regulation 13 of the named regulations, the persons and organisations consulted as part of the process for preparing the SPD are identified in Appendix A.
- 1.3 Public Consultation on the Draft SPD took place from 27th February to 10th April 2017.
- 1.4 Copies of the draft SPD were provided in Watford Library, North Watford Library and Watford Council Buildings. A press notice was issued in the Watford Observer on Friday 24th February 2017. Facebook and Twitter were also used to raise awareness of the draft SPG consultation. Details of the consultation can be found here:

https://watford.jdi-consult.net/localplan/

- 1.5 Appendix A lists details of all who were consulted.
- 1.6 Appendix B identifies the responses received, the key issues identified by the named consultees and how the council addressed these issues.

Appendix A – Persons/Organisations Consulted

| Name | Organisation |

Appendix B – Summary of issues raised in the consultation and how they have been addressed

The total number of submissions: 7

| Name | Organisation | Summary | How addressed |
|------------------|-------------------------------|---|--|
| Mike Claire | Hertfordshire Constabulary | For storage in garden sheds, the shed shackle to be promoted. For secure storage for blocks of flats the entrance door to be BS PAS 24: 2016 or equivalent. For public spaces: on page 12 at "key Questions' additionally wording to include "Is there CCTV coverage to deter theft" | Agree to include wording to promote the use of shed shackle in gardens as recommended. Inserted on Page 9. Section 3.1 "For dwellings houses, private garden sheds or garages are sufficient with the use of a shed shackle where possible Wording for secure storage for blocks of flats door standard has been included the suggested question has been included in the 'Key Questions table on Page 12"Is there CCTV coverage to deter theft" |
| Mr Ian Curran | | Fully support the need to provide good quality, secure storage for bicycles. For transport hubs an important need is to ensure the quantity of provision is also adequate and that capacity is monitored and growth planned and managed to keep up with demand. To look at the grossly overcrowded bicycle storage at Watford Junction to see that it is inadequate and constraining the shift to cycling from other, probably more polluting and less healthy, means of transport. Transport authorities | Comment acknowledged and have responded that further work on the amount of cycling provision required is being carried separately from the SPD. |

| Mr Mike Leslie | | should be required to monitor usage and expand provision as necessary 1. Would like to see address to more than bicycles parking, Motor scooters as well as Motor bikes should have same resources as bicycles, somewhere for all two wheeled vehicles to be kept safe. It would be more popular than to regulate it to just one | Responded that this is a good point raised and that further work is being carried out to look at Power 2 wheelers as part of the Parking strategy work. |
|-------------------|------------------|---|---|
| Alice Eggeling | Historic England | Welcomes the encouragement and support of cycling: any transport mode that reduces the harmful polluting effects of motor vehicles and supports places for people rather than cars is supported in terms of heritage value. Would however welcome recognition within the document that cycle parking should be designed and located with respect to the historic environment, particularly the effect of cycle parking solutions on the character and appearance of conservation areas, other heritage assets and in particular, their settings. Covered cycle racks in particular, which can be substantial structures, should and be well positioned to preserve or enhance the significance of any nearby heritage assets and contribute to positive place making. This should extend to the ground surfaces, colour and materials. Notes that the SPD encourages cycle parking to be located as close to retail entrances as possible and we request that this is caveated as follows; Parking should be located as close as possible to the main entrance where appropriate to the historic environment | Text included in the Introduction Section, on Section 2 and on P.18 Section 4. |

| Odette | Hertfordshire | 1. | Welcomes the publication of the SPD on Cycle Parking. | • | Additional headings included for |
|--------|----------------|----|---|---|--|
| Carter | County Council | | It is positive that the council recognises the importance | | clearer guidance to developments |
| | | | of cycle parking at the origin and destination, for | | in residential settings on Section |
| | | | different types of user. However we suggest a number | | 3.1 p.8 &9. It is also noted that the |
| | | | of improvements to make the guidance clearer and to | | comment re: HMO is covered, |
| | | | ensure that adequate, attractive, and secure cycle | | case by case within the SPD. |
| | | | parking is provided in new developments. We | | |

| | | | | attractive cycle parking at the start and end of a journey is necessary for people to choose to cycle that journey. The potential benefits of increased cycling cannot be realised without it. |
|-----------------------|-----|----------|---|---|
| Mr Richard Carr | TFL | 1. | Based on experience in supporting increased cycling in London, TfL recommends that the SPD reflects good practice for cycle parking as set out in the relevant chapter of the London Cycle Design Network Guidance available on TfL's website at <u>http://content.tfl.gov.uk/lcds-chapter8-</u> <u>cycleparking.pdf</u> Although not a TfL document, good practice guidance prepared for Westrans - a group of West London boroughs may also be of interest. It is available <u>http://www.westtrans.org/WLA/wt2.nsf/Files/WTA- 178/\$file/West+London+Cycle+Parking+Guidance+2</u> <u>016.pdf</u> | Comment noted and SPD has been updated accordingly |
| Mr Richard Haywood | | 1. 2. | Would like to see added to the transport hub section is that: "Bicycle storage should be provided for free and with low barriers to entry e.g. not having to request access to a bike store or purchase a key" Finally there is no indication as a ratio of bike spaces at transport hub or Employment and Education for a given number of daily users. Without such a figure | Comment has been added to the section Acknowledge comment and have responded to say that we are currently reviewing parking standards which will include the quantity of spaces to be provided. This work will |

| places could put up an inappropriately small number | inform the Local Plan. |
