- (1) As per the letter sent and FAQs the developments with the flats at Southwold Road and Chiswell Court would not be eligible for permits as they are private developments with their own off street private parking areas, but they were asked their views as they use the roads in the proposed zone for access.
- (2) 3 Responses were received from people who did not live in the area but parked in the area as they visited properties in the area due to work/family and wanted their say.
- Table 2 excludes the properties which would not be eligible for permits. This gives a higher response rate (29% compared to 23%), which shows greater engagement from these properties, but still shows a closely split response rate (53% Yes/47% No).
